

Dear Parents,

Welcome to survival swimming!

Lessons for infants and children under 24 months, are up to 10 minutes in duration and are scheduled **3 times per week**. The cost is \$75.00 per week. (\$84.00 effective 4/1/23)

Lessons for children 24 months and older, are up to 15 minutes in duration and are scheduled **3 times per week**. The cost is \$96.00 per week. (\$111.00 effective 4/1/23)

New students pay a one-time \$40.00 registration fee.

The consistency in scheduling allows for reinforcement of skills without too much downtime in between lessons.

Please be advised that **time slots are booked on a weekly basis not by the individual lesson**. If you are unable to commit to a set time each week, I will do my best to accommodate your needs, however, I cannot guarantee those time slots will be available each week. The intensity of my schedule varies especially during the summer months and does not allow for the flexibility that I have during the slower months. Please be mindful of this. Thank you!

Check, cash and credit cards are all acceptable forms of payment. (Credit card payments and cash app payments are subject to a \$5.00 convenience fee.) **Payment is due on the first day of lessons each week.**

Please arrive on time for your scheduled lesson and have your child dressed and ready to swim at their appointed time. Your child's lesson may be shortened or subject to cancellation should you arrive late. Absences and sickness are an unfortunate occurrence; however, due to the intensity of my scheduling, it is not possible for me to make up missed classes. **I allow every student one last minute call out in anticipation of this, otherwise a 24 hour notification is required.** Failure to give adequate notification will result in regular lesson charges with no make ups.

Children not potty trained should wear swim diapers, **only** the cloth reusable kind are acceptable, or doubled up with the disposable kind. These can be purchased locally or from me directly. (The disposable ones are ineffective and costly.)

Please do not feed your child within 1 hour of lessons and no dairy products within 2 hours. Dairy products are hard to digest. Avoid giving your child any apple products prior to their lesson, as these also cause excess gas which can lead to excessive bloating during the lesson. This is very uncomfortable for your child.

When children are in and around water **swim lessons are in no way a substitution for continual supervision by an adult that knows how to swim.**

Thanks so much!

Tracey Smith
